Dear Ma'am/Sir

Good day.

I would like to apologize for my absence from class on November 08, 2025 Saturday. Due to the recent typhoon, our area was severely affected, leaving us without electricity and water supply. Additionally, I had to stay home and take care of my children as it was unsafe to leave them under those conditions. No one could watch after my children. I didn't have the choice and could not attend the class, taking care of them is more important than anything else for me.

I understand the importance of attending classes and keeping up with the lessons, and I will do my best to catch up on any missed work or requirements once our situation stabilizes. I hope for your kind understanding and consideration.

Thank you very much for your patience and support.

Sincerely,

  
Christy G. Caval
